"SUNNY BOY"

Earliest flowering hardy yellow Pompon  
Chrysanthemum

A good clear yellow sport of Early Bronze. Except in color its habit is identical with its parent in every way. Flowers 1 1/2 inches to 2 inches in diameter. Height 2 ft. Blooms in late August or early September. Makes an excellent cut flower and a good pot plant.

Just the Chrysanthemum you have been looking for.

Strong 2 1/2 in. pot plants

**GUARANTEED TO BLOOM THIS SEASON**

50c each; \$4.50 per 10; \$40.00 per 100

Orders filled strictly in rotation

"ADMIRAL BYRD"

This plant produces five to six inch pure white flowers, bearing two or three rows of deeply lanceolated petals, with a rich golden yellow center. The flowers have a distinct frilled appearance. Stems are thirty to thirty-six inches long, very straight and stiff.

Two-year-old plants have produced as many as twenty to twenty-five flowering stems. It blooms ten days to two weeks after Chrysanthemum Alaska and Westralis.

This Chrysanthemum is an excellent cut flower lasting two to three weeks after cutting. Its hardiness is unquestionable after withstanding temperatures as low as twenty below zero without any protection.

Strong 2 1/2 in. pot plants

**GUARANTEED TO BLOOM THIS SEASON.**

50c each; \$4.50 per 10; \$40.00 per 100

# What the well dressed Lawn Maker should wear

The man who waits to seed his lawn  
'Til coatless he can ramble,  
Tho' sure to bolster up his brawn  
Makes grass a griev'ous gamble.

While he who rolls his collar high  
And seeds while frost is lurking,  
Will have a lawn that doesn't die  
When sun and weeds start perking.

Just think of the struggle grass has with weeds all summer long.  
Why not give it a little assistance with a head start this spring?

If you want to be proud of your lawn, sow Scotts Lawn Seed now even though the ground may be frozen. This fresh, live seed, with the chaff cleaned out, is guaranteed 99 and 91/100 per cent weed free. It makes rich green turf of permanent grasses.

Incidentally this is a good time to fertilize your lawn. Try Turf Builder, the food made especially for grass. Why not order your requirements today? Our stocks are complete and ready for you.

NATIVE SHRUBS AND PLANTS

We can furnish any of the native trees, shrubs, plants or ferns that grow in this vicinity. Large tracts of wood and pasture land are at our disposal, from which we can obtain any of these native plants.

HEDGE PLANTS

A living fence, made from growing plants, attractive with their green leaves and formally trained or arched branches, is a part of the grounds and garden, and is surely more ornamental than an artificial fence. A hedge is permanent. Once planted only occasional trimming or shearing is required.

# Roses . . .

As long as they exist ROSES will retain their dominant grip upon the affections and appreciations of flower lovers.

Dormant roses should be well watered and the tops protected from the sun until the buds show growth, for the failure of most roses to live is due to lack of moisture.

We can supply field-grown dormant plants at 65c each, \$5.50 per 10; extra heavies at 75c each, \$6.50 per 10.

### HYBRID TEA ROSES

Few plants give greater satisfaction than the modern ever-blooming Hybrid Tea Roses.

**Betty Uprichard.** Copper red buds with semi-double brilliant orange-carmine flowers.

**Briarcliff.** Double, silvery rose pink.

**Columbia.** Glowing pink. A large full double rose.

**General MacArthur.** Large, velvety scarlet.

**K. A. Victoria.** Cream, shaded lemon, fragrant.

**Lady Alice Stanley.** Beautiful coral-rose. A magnificent variety, nearly reaching perfection.

**Mme. Butterfly.** Large rose of bright pink, golden apricot.

**Mrs. E. P. Thom.** Long shaped buds of rich lemon yellow. Vigorous.

**Ophelia.** Salmon-flesh shading to rose. Very beautiful.

**Pink Radiance.** Double sweet scented carmine pink.

**President Herbert Hoover.** Maroon, orange and gold.

**Red Radiance.** Exact duplicate of Pink Radiance except in color. Red.

**Rev. F. Page Roberts.** Golden yellow blooms tinted with copper on outer petals.

**Roslyn.** (New). Full golden yellow bloom, deeper in center, orange splashings on back of petals.

**Talisman.** Most vividly colored rose, apricot shading to yellow.

**Willowmere.** Buds coral red, opening rich shrimp pink.

### HYBRID TEA ROSES OF RECENT INTRODUCTION

#### COUNTESS VANDAL. (Plant Patent No. 38)

The sensation of the shows. The most popular variety at the Century of Progress. A lovely coppery pink and gold, extra long pointed buds.

\$1.00 Each; \$10.00 per doz.

#### MARY HART. (Plant Patent No. 8)

A striking red spot of Talisman. The bud is maroon-red, opening to well-formed blossoms of deep velvety blood-red with an overflow of amber. Unlike most red Roses, Mary Hart does not wilt or dry out when cut, but opens perfectly.

\$1.00 Each; \$10.00 per doz.

### POLYANTHA OR BABY RAMBLER ROSES

Unlike all other single Roses, these new hybrids are of a vigorous habit, growing from 2 to 3 feet high and are a mass of attractive flowers throughout the season.

They bear relatively small flowers in huge clusters somewhat resembling the old fashioned ramblers.

#### EXTRA HEAVY PLANTS - Potted the modern way

\$1.00 each; Per 10, \$9.50

**Baby Rambler.** White. A constant bloomer from early spring until frost.

**Cecile Brunner.** A soft rosy-pink on a rich creamy-white ground.

**Ellen Poulsen.** Very popular, medium-flowered type of soft rose-pink.

**Golden Salmon.** Large clusters of striking reddish-orange buds and blooms.

**Ideal.** Dark velvety crimson blooms in great profusion throughout the season.

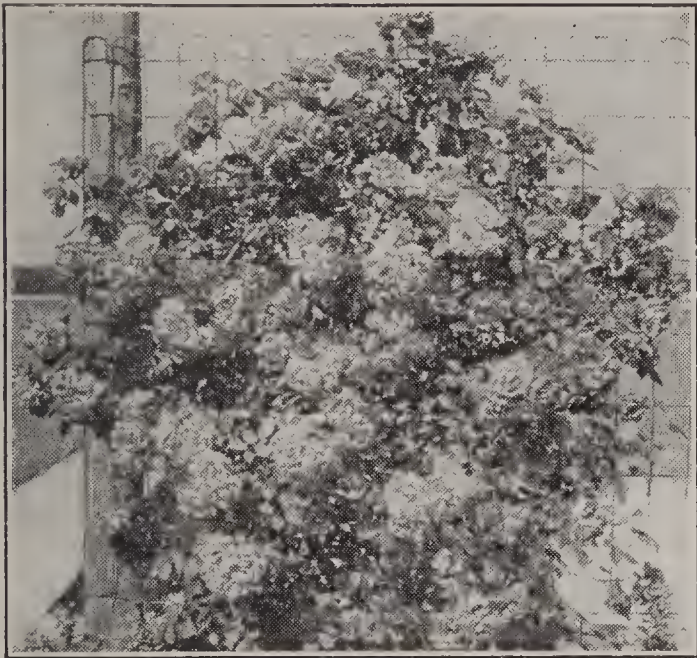

**Le Marne.** Almost white with pink edges.

**Miss Edith Cavell.** Brilliant crimson with white center.

**Triomphe orleanais.** Bright cherry-red.

HARDY CLIMBING ROSES OF RECENT INTRODUCTION

Climbing  
Roses

**Golden Climber (Mrs. Arthur Curtis James)**  
(Plant Patent No. 28.) It does not make a short blast of bloom like most climbers. Its beauty is long lasting. After the first prolonged period of bloom some magnificent flowers can again be expected and "The Last Rose of Summer" may come from Golden Climber. \$1.00 Each; \$10.00 per doz.

**New Dawn (Everblooming Dr. Van Fleet)**  
(Plant Patent No. 1.) The first really worthwhile ever-blooming hardy climber. Flowers come continually from early summer until freezing weather. \$1.50 Each; \$15.00 per doz.

**Princess Van Orange.**  
(Plant Patent No. 106.) Sensational climbing sport of Gloria Mundj. It has rich green foliage and is literally covered with masses of blazing red flowers with polyantha like trusses. The most talked of European climbing novelty in many years. \$1.00 Each; \$10.00 per doz.

# Hardy Perennials and Rock Plants..

Perennials comprise most of the best flowers as well as the foundation of any well planned garden. They exist in infinite varieties, sizes, colors and seasonable bloom.

The material we grow is strong field grown stock with the exception of some varieties which transplant better grown in pots.

We offer perennials in quantities of three, instead of singly, as we believe, generally speaking, it isn't practical to get a satisfactory garden effect by using one plant of a kind. Please remember that five plants or more of one variety will be priced at the ten rate and that twenty-five or more of one kind will be entitled to the hundred rate when such rate is given.

Plants marked with (r) are particularly adapted to the Rock Garden.

## ADMIRAL BYRD

This plant produces five to six inch pure white flowers, bearing two or three rows of deeply lanceolated petals, with a rich golden yellow center. The flowers have a distinct frilled appearance. Stems are thirty to thirty-six inches long, very straight and stiff.

Two-year-old plants have produced as many as many as twenty to twenty-five flowering stems. It blooms ten days to two weeks after Chrysanthemum Alaska and Westralis.

This Chrysanthemum is an excellent cut flower lasting two to three weeks after cutting. Its hardiness is unquestionable after withstanding temperatures as low as twenty below zero without any protection.

CHRYSANTHEMUM—KOREAN HYBRIDS

A beautiful new contribution to American gardens. In the new hybrid Korean Chrysanthemums offered here, we literally have a new race of flowers for planting our gardens. Their branching sprays stand 2½-3 ft. high, look like huge bouquets of hot-house Gerberas, echoing in their refined and distinct way the whole color-range of Chrysanthemums we all know so well. We are pleased to offer the following varieties.
